DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Archon Energy 1, Inc.

Project No. 14497-000

Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments,
Motions to Intervene, and Competing Applications

On February 11, 2013, the Archon Energy 1, Inc., filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Kings River Drop 3 Hydroelectric Project (Kings river Drop 3 Project or project) to be located on Kings River, near the city of Sanger, Fresno County, California. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) a VLH diversion canal intake and a gated turbine structure adjacent to the eastern abutment of the existing dam; (2) a 300-foot by 60-foot turbine structure enclosing three VLH 4000 turbo generators;

(3) a 10 foot by 10 foot electrical control shack; and (4) appurtenant facilities. The proposed project would have a total installed capacity of 1.5 megawatts (MW) and generate an estimated average annual energy production of 10,000 megawatt-hours (MWh) by diverting existing stream flow into the diversion canal.

Applicant Contact: Mr. Paul Grist, Archon Energy 1, Inc., 101 E. Kennedy Blvd., Suite 2800, Tampa, Florida 33602, phone: (403) 618-2018.
